## ALL Schools Need Our New SAFE4SCHOOL PEANUT BUTTER REPLACEMENT SPREAD...

WOWBUTTER takes the place of PB&J's in school lunches because it's so smooth, creamy and incredibly delicious - you won't believe its not peanut butter!

Our innovative WOWBUTTER was designed and developed to protect the millions of kids and adults who suffer from life threatening peanut and tree nut allergies. More specifically, it was developed to nourish the hundreds of millions of non-allergic school kids that need healthy lunch solutions.

Socially Responsible Schools are banning Peanut Butter or have peanut allergy policies in place due to the high risk to allergic kids. But kids still want their favorite food for lunch. Our WOWBUTTER is the only true perfect Safe4School peanut butter replacement that is fast becoming a new food staple for many schools and students.

WOWBUTTER solves the difficult problems that have risen from the necessary peanut free policies implemented by Schools, Camps and Day Cares. It is the **ONLY available product that has all the necessary components of taste, texture and nutrition to replace peanut butter in schools** and is credited the same as peanut butter for USA Child & Adult Food Programs when used as a meat alternative.

Most importantly, **Lunch providers no longer have to struggle** with what to serve in place of the well loved peanut butter & jelly sandwich. Many kids do not like sandwich meats, which results in limited options for lunches. Schools can feel good about serving WOWBUTTER AND JAM SANDWICHES (WB&J'S) because they are providing a **nutritious lunch** while keeping kids safe, happy and nourished!

## WOWBUTTER...FINALLY A GREAT WAY TO GET THE HEALTH BENEFITS OF SOY WITH A TASTE YOU ALREADY LOVE!
